Jack Grossman
Web Developer

609-412-5342
j.grossman18@gmail.com
Washington D.C.

I am an independent, resourceful Web Developer with a passion for the stories that maps can tell. I believe in the power that open-sourced geospatial data has as a tool to transcend physical, technological and social borders. I want to join the movement to build software that uses this invaluable resource to effect real world change.

Technical Proficiencies

GIS Software: QGIS, GDAL
Programming Languages: Javascript, Python, SQL, Node.js, ArcPy, CSS
Programming Frameworks: Express, MongoDB, React, Handlebars

Experience

General Assembly   Washington, D.C.
Web-Development Immersive Student   May 2018 – Present
• Completed full-time immersive course, including 500+ hours of professional training in full stack web development training
• Produced a web based surf forecasting app, developing the UI which connected to a stack using MongoDB, Express, Handlebars & MaboxGL
• Built a portfolio through both individual and collaborative projects utilizing Javascript, Python and Node.js

Utilis Inc.   Tel Aviv, IL & Washington D.C.
Delivery Coordinator - GIS Specialist   August 2016 - April 2018
• Developed maps using QGIS that illustrate utility infrastructure areas desired and suitable for leak detection analysis
• Created spatial analysis model, combining specific pipe attributes and potential leak areas to improve field survey success
• Conducted data planning, delivery, and on-site field verification for over 20 projects both domestic and international

Kensington Furniture   Northfield, NJ
Digital Marketing Specialist   May 2013 - August 2016
• Constructed Kensington's Customer Relationship Management System reducing sale cycles and improving store traffic
• Established online marketing strategy that increased Kensington's annual web traffic by 100% from 2014 to 2015.
• Generated Google Adwords and Facebook advertising strategies converting previously untapped demographic into customers
